Syllabus and Policies
Clinic Professor and Clinic Director
Angela McCaffrey

I. Required, Recommended and Supplemental Readings.

Required:

1. Peter Murray, Basic Trial Advocacy
2. TWEN - course website
Students must enroll and provide an e-mail address. The address is:
<http://lawschool.westlaw.com/twen/default.asp>. Please go to TWEN for the first class assignment
3. Minnesota Unemployment Insurance Law 2008 (copy will be provided to you)
4. Supplemental materials to be made available on a periodic basis

Recommended Reading:

Two additional trial advocacy books are on reserve and available for your use in preparing for trial.

1. Thomas A. Mauet, Trial Techniques.
2. James W. McElhaney, Trial Notebook.

II. Office Hours and Contact Information.

I will set weekly appointments for each team to review your casework. These meeting times will depend upon your schedule. In addition, you may call me at **(651)523-2889** or e-mail me at **amccaffrey@hamline.edu** to set additional appointments. Please feel free to stop by my office any time.

III. Attendance and Participation.

Regular attendance is critical in the Trial Practice Clinic. We are operating as a small law firm and you will benefit from the opportunity to discuss your case theory and moot court final arguments and other portions of upcoming trials in class. Attendance will be taken in each class by passing around the attendance sheet. Due to the importance of class attendance in case development 2 absences will be considered excessive. Class participation is taken into account in grading.

IV. Laptop Policy.

Laptops may be used in class to take notes and to look up statutes or class materials. Use of laptops for anything other than class work is not permitted. This is an interactive class requiring your complete attention and participation.

V. Testing and Grading.

The Trial Practice Clinic is a three-credit course with no final examination. Students will be expected to spend a minimum of 70 hours working on client cases in addition to class time and class preparation time. Although students work in teams, they are graded individually based on their individual efforts and contributions to the client representation. Grading is discussed in more detail in section VI.

VI. Statement of Goals and Objectives.

- A. Central Objective: The Trial Practice Clinic combines the experience of representing clients under close supervision with the opportunity for careful reflection characteristic of an academic setting. The clinic is intended to provide a foundation for the continuing acquisition and honing of the skills necessary to be a competent practicing attorney. The case types chosen are unemployment compensation hearings, which provide students with litigation experience.
- B. Sub-objectives. The Trial Practice Clinic has four major sub-objectives. They are as follows:
 1. Students will learn and use a systematic approach to lawyering. There are many approaches to effective lawyering and this clinic will expose students to one such system. In this system, students will be expected to:
 - a. Maintain their case files in an organized fashion, in accordance with the case file organizational plan of the clinic.
 - b. Keep accurate and complete narrative and time records of all activities undertaken in the case.
 - c. Make regular use of the clinic "tickler" system.
 - d. Be punctual and reliable in their dealings with clients, other attorneys, supervisors, courts and administrative agencies. (Telephone messages should be returned promptly. Clients should be kept informed on a regular basis of the progress or lack thereof on their cases. Deadlines and promises should be strictly adhered to.)
 - e. Prepare the following case management documents for each of their cases:

- i. A written interview summary describing each meeting with the client or potential witness.
 - ii. A proposed weekly tickler for each case which will be discussed at the weekly meeting with the supervisor.
 - iii. A trial notebook for each case with direct exam, cross exam, brief, and closing argument.
 - iv. A closing or transfer letter to the client. The purpose of this letter is to say goodbye to the client and summarize the student's actions over the past semester.
2. Students will learn to use critical observation of self and others as a tool for continuing learning and skill development. Most of a lawyer's learning--particularly in the area of practical skills--takes place after the student has left law school. In order to decrease one's own ineffective practices and to replicate effective techniques, it is important for the student to develop both the habit and the ability to observe him or herself and other attorneys in a careful manner.
3. Students will learn to make productive use of supportive resources available to them, in particular, suggestions by teammates and other class members and advice and supervision from their supervising attorney.
4. Students will represent their clients competently, effectively zealously, and ethically.
 - a. Students will attempt energetically and tenaciously to achieve their client's objectives.
 - b. Students will learn to translate the real problems of their clients into manageable legal categories, do efficient and thorough legal research on those problems.
 - c. Students will improve their pre-trial and trial skills (e.g., interviewing clients and witnesses, preparing and responding to discovery, marshaling evidence, preparing witnesses, delivering opening and closing oral arguments, examining and cross-examining witnesses, making and responding to objections, etc.).
 - d. Students will learn to develop a coherent theory of the case, which combines the facts and applicable law into a coordinated approach to the case designed to persuade the decision-maker.
 - e. Students will analyze their obligations under the Code of Professional Responsibility and their own systems of values.

- f. Students will learn to communicate cross-culturally in an accurate and sensitive manner. Students will learn how to interview through an interpreter.

C. Evaluation of students in the clinic will take five forms:

1. Informal, oral evaluation by the supervisor of the student's performance contemporaneously with, or immediately after the performance;
2. Some written critiques of the student's performance and written work;
3. Completion by student of formal self-evaluation forms at the mid-point and semester's end;
4. Completion by supervisor of an evaluation form at semester's end; and
5. Assignment of a letter grade. The letter grade will be determined based on the student's performance in each of the four major sub-objectives described above in Section B, using the attached evaluation form. Class participation is taken into account in grading.
