Mediation: The Red Devil Dog Lease (University of Missouri Columbia, 1991), 38 minutes; teaching manual available (Tape III in four part series “Dispute Resolution and Lawyers”)

Mediators at Work: Breach of Warranty? “displays the mediation of a typical commercial legal dispute. The case involves a breach-of-warranty suit between two companies over damage that the defendant supplier allegedly caused to the plaintiff company’s fleet of trucks by selling it defective antifreeze. The dispute is complicated by the fact that the plaintiff has filed a bad-faith settlement practice claim against the defendant’s insurance carrier, as well as by the interests and emotions of the principals of the two family-owned companies.” 55 minutes

Mediators at Work: Termination Tempest “is an unscripted, realistic demonstration of the mediation of an employment dispute. The mediation is based on the facts of the Termination Tempest role simulation, also available through the Clearinghouse. Plaintiff Pat Thibideau had worked at Kane Restaurant Supply for fifteen years before being terminated at age 66. Thibideau sued Kane under the Federal Age Discrimination Act, alleging that the termination was pursuant to Kane's illegal mandatory retirement policy. The case has been in court for approximately one year, and substantial discovery has been completed. At Kane's suggestion, the parties and their counsel have agreed to try to settle the case through mediation.” Run time: 90 Minutes

Murphy v. Dupont (Program on Negotiation, running time 51 minutes)
http://www.pon.org/catalog/index.php

Resolution through Mediation: Solving a Complex International Business Problem. “Discover the value of resolving trademark conflicts through mediation with this 40-minute informative video, which demonstrates a mock mediation session. Setting the stage with a business dispute between a Russian distillery and an American manufacturer and distributor of alcoholic products, the video reviews how two parties are able to use a mediator to settle their differences. Allegations of unfair trade practices, trademark and trade dress infringements and bad faith pirating dominate the dispute. The video uses an actual INTA mediator and INTA members as talent, and was introduced in May 2003 to attendees of INTA's 125th Anniversary Annual Meeting in Amsterdam, Netherlands. The video features an accompanying study guide to assist in getting the most out of your viewing. Time: 40-minute program duration.” Stream for classroom use by visiting www.inta.org (current site for the video download is: http://www.inta.org/index.php?option=com_content&getcontent=3&id=695&task =view&Itemid=171&getcontent=3). NOTE: May also be purchased as DVD/CD in 28 and 40 minute versions. For details see:
Save the Last Dance: Mediating through Understanding “Produced by the Program on Negotiation in collaboration with the Center for Mediation in Law, this video demonstrates the "Mediation through Understanding" mediation model as applied to a highly charged business conflict. Focusing on a dispute between a dance company and its recently discharged choreographer, which raises intellectual property and employment issues, the video alternates between excerpts from the mediation itself and an educational commentary.” (Program on Negotiation, running time, 1 hour)
